Tobacco Stocks Report as of October 1, 1968

U. S. DEPARTMENT OF AGRICULTURE CONSUMER AND MARKETING SERVICE TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Washington, D. C. November 19, 1968

CURRENT SERIAL RECORDS

BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes and types)

CLASS 1, FLUE-CURED TYPES

- Type 11: Old Belt flue-cured; produced principally in the Piedmont sections of Virginia and North Carolina.
- Type 12: Eastern North Carolina flue-cured; produced principally in the coastal sections of North Carolina, north of the South River.
- Type 13: South Carolina flue-cured; produced principally in the coastal sections of South Carolina, and the southeastern counties of North Carolina, south of the South River.
- Type 14: Georgia and Florida flue-cured; produced principally in southern Georgia and northern Florida.

CLASS 2. FIRE-CURED TYPES

- Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.
- Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkins-ville; produced principally in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.
- Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, and Murray; produced principally in a section between the Tennessee, Ohio, and Mississippi rivers in western Kentucky and northwestern Tennessee.

CLASS 3, AIR-CURED TYPES

LIGHT AIR-CURED (CLASS 3a)

- Type 31: Burley; produced principally in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.
- Type 32: Southern Maryland; produced principally in five counties of southern Maryland--Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

DARK AIR-CURED (CLASS 3b)

- Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.
- Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.
- Type 37: Virginia sun-cured; produced principally in central Virginia, north of the James River.

CLASS 4, CIGAR-FILLER TYPES

- Type 41: Pennsylvania Seedleaf; produced principally in Lancaster County, Pa., and the adjoining counties.
- Type 42-44: Ohio filler; produced principally in the Miami Valley section of Ohio and extending into Indiana.
- Type 46: Puerto Rican sun-grown, including primed (Deshojado) and stalk-cut (Mata); produced on the Island of Puerto Rico

CLASS 5, CIGAR-BINDER TYPES

- Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.
- Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.
- Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.
- Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.
- Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

CLASS 6, CIGAR-WRAPPER TYPES

- Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.
- Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

- Type 72: Louisiana Perique.
- Type 73: All domestic types of tobacco not otherwise classified.

FOREIGN TYPES

- Type 81: Cuba.
- Type 82: Indonesia.
- Type 83: Philippine Islands.
- Type 84: Brazil.
- Type 85: Colombia.
- Type 86: Dominican Republic.
- Type 87: Paraguay.
- Type 88: Mexico.
- Type 89: All foreign-grown cigar-leaf.
- Type 90: Foreign-grown cigarette and smoking tobacco (Turkish and other).

Total inventory of leaf tobacco smaller than a year ago.

Leaf tobacco inventories in the United States and Puerto Rico totaled 4,937 million pounds as of October 1, 1968, on the basis of the quarterly stocks reports of dealers and manufacturers. This was a decline of 58 million pounds from a year earlier (4,995 million). Growers marketed around 735 million pounds during the third quarter consisting chiefly of flue-cured. During the corresponding period last year 722 million pounds were marketed.

The marketing year for all kinds of tobacco except flue-cured and cigar wrapper is on an October - September basis (Table 3). The indicated total disappearance (exports plus domestic consumption) during the 1967-68 marketing year for all U. S. grown types combined for their respective periods was 2,054 million pounds compared with 2,121 million during the previous year. In addition to the U. S. grown tobacco, approximately 274 million pounds of imported tobacco were used by domestic manufacturers during the past fiscal year (231 million the year before). In turn, the U. S. exported 648 million pounds during the 1967-68 marketing year. In the previous year a record 704 million pounds of U. S. leaf was exported.

Stocks as of October 1, 1968, included 1,205.1 million pounds of leaf tobacco under Government loans (1,090.9 million as of October 1, 1967). These loan stocks were divided as follows: Flue-cured, 825.8 million pounds; burley, 321.7 million; Maryland, 9.3 million; fire-cured, 24.3 million; dark air-cured, 17.1 million; and cigar leaf, 6.8 million.

^{1/} Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See tables in body of report for reported weight basis.) This report is issued quarterly.

^{2/} All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

Flue-cured and Oriental higher: Burley and Maryland decline,

Stocks of <u>flue-cured</u> tobacco on October 1, 1968 were 2,628 million pounds compared with 2,621 reported on hand a year ago. Marketing of the 1968 crop, currently estimated at 991.3 million pounds began in July, and sales by growers totaled about 722 million pounds by the end of September. During the corresponding period last year, 714 million were sold.

Burley stocks of 1,329 million pounds representated a decline of 53 million compared with the previous October 1. Based on October stocks, total disappearance of burely tobacco during the marketing year just ended (Oct. 1967 - Sept. 1968), amounted to 593 million pounds. Indicated domestic consumption was 540 million pounds with exports of 53 million.

Stocks of <u>Maryland</u> tobacco were 87.5 million pounds, a decrease of 8.1 million from last October 1. Auction sales for the 1967 crop were concluded in June, 1968. Disappearance of Maryland during the 1967-68 marketing year was around 41 million pounds. Exports of 15.7 million give an indicated domestic use of 25 million pounds.

Foreign-grown cigarette and smoking tobacco stocks (mostly Oriental) were 402.5 million compared with 372.1 million on October 1, 1967.

DARK TOBACCO STOCKS

Fire-cured stocks significantly lower: air-cured also declines

Fire-cured tobacco stocks, reported as 90.5 million pounds, were 15.6 million smaller than a year ago. All types shared in the decline. Stocks on October 1, 1968 were divided as follows: Virginia, 11.7 million; Eastern District, Kentucky and Tennessee, 63.2 million; and Western District, 15.6 million pounds. Disappearance of fire-cured during the 1967-68 marketing year totaled 52.0 million pounds, a small decline from the previous year. However, indicated domestic usage was down by 5 million pounds as exports showed improvement.

<u>Dark air-cured</u> stocks on this October 1, were reported at 62.1 million pounds, a drop of 2.5 million from holdings a year earlier. As with firecured, all three types showed reduced inventories. The breakdown by types was, One Sucker, 36.1 million; Green River, 22.1 million; and Virginia sun-cured, 3.9 million pounds. Disappearance of dark air-cured tobacco during the 1967-68 marketing year was 19.3 million pounds, a decline of close to 4.0 million pounds from the previous year. Exports and domestic consumption both declined.

Domestic cigar-leaf continues to decline Foreign-grown leaf shows modest increase

<u>Cigar - leaf</u> stocks of all domestic types, including Puerto Rican, totaled 242.1 million pounds on October 1, 1968--22.1 million below the figure reported a year earlier. Stocks of foreign-grown cigar-leaf totaled 90.9 million pounds compared with 84.9 million on hand the previous October 1.

Overall stocks of the <u>cigar-filler</u> types at 156.0 million pounds were 12.3 million below the total reported on October 1, 1967. Declines were reported in all types. Pennsylvania Seedleaf stocks this October 1, were 108.7 million pounds; Ohio filler, 12.9 million; and Puerto Rican filler, 34.4 million. Disappearance of the filler types for the 1967-68 marketing year totaled 66.2 million pounds—a substantial decline from the previous year (84.1 million).

Cigar-binder stocks were 59.2 million pounds on October 1, 1968, a drop of 7.2 million from a year earlier. All types shared in the decline. Connecticut Valley Broadleaf stocks this October 1, were 8.5 million pounds; Connecticut Valley Havana Seed, 2.8 million; Southern Wisconsin, 19.9 million; and Northern Wisconsin 28.1 million pounds. Disappearance of the cigarbinder types totaled 26.0 million pounds during the 1967-68 marketing year, an increase of 2.5 million from the previous year.

Shade-grown leaf stocks were 27.0 million pounds compared with 29.5 million a year ago. Connecticut Valley stocks were 16.3 million and those of Georgia - Florida 10.7 million pounds.

Stocks of <u>Cuban</u> (Havana) leaf were reported at 2.2 million pounds--down 1.4 million from a year ago. Holdings of <u>Philippine Islands</u> (Manila) were 35.6 million--up 5.5 million; <u>Sumatra and Java leaf</u>, 3.8 million; <u>Brazilian</u> leaf, 9.5 million; <u>Columbian</u>, 12.1 million; <u>Dominican Republic</u>, 14.4 million; <u>Paraquay</u>, 3.2 million; <u>Mexico</u>, 4.4 million; and other foreign-grown, 5.5 million.

Stocks represented in tobacco sheet are higher

Stocks of leaf represented in inventories of "tobacco sheet" totaled 22.5 million pounds (reporting weight) compared with 21.3 million on the previous October 1. Of the total in "sheet" 19.7 million pounds were for use in cigarettes and smoking tobacco, and 2.8 million for cigar binder and wrapper.

^{1/} Types 11-37 are reported on the basis of packed weight.

^{2/} Farm-sales-weight equivalent based on unstemmed sweated weight factor.

^{3/} The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, October 1, 1968, compared with other quarters 1/

	: :	:					

^{1/} Totals include stocks of leaf reported in tobacco sheet. See separate reporting in table 4.
2/ Type 73 is defined as all domestic types of tobacco not otherwise classified; the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to

designate cuttings, clippings, and trimmings in the types to which they properly belong.

3/ Separate reporting of Mexican stocks was not required until October 1968. In previous quarters Mexican totals were included as other foreign-grown cigar-leaf.

Revision.

^{1/} Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

^{2/} The carryover stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

^{3/ 1967} sales substituted for production. 4/ Subject to revision.
5/ November 1 estimate, U. S. Crop Reporting Board, SRS. 6/ Includes 20 million pounds destroyed by fire.

Detail may not add to total because of rounding.

Table 4.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and wrapper, and for cigarettes (including smoking tobacco), separately

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reporting in table 4.

 $\overline{f y}$ For explanation of stocka included in this classification see footnote 2 on page 7.

These statiatics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

^{3/} This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers represent domestic manufacturers only. All Government loan stocks are included as dealers holdings.

^{4/} Includes stocks on the Island of Puerto Rico.

^{6/} Separate reporting of Mexican stocka was not required until October 1968. In previous quarters Mexican totals were included as other foreign-grown cigar-leaf.

Table 7.--Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, October 1, 1968 compared with other quarters 1/2/2

^{2/} These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasimanufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1967, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

^{3/} Subject to revision. 4/ For explanation of stocks included in this classification see footnote 2 on page 7.
5/ Separate reporting of Mexican stocks was not required until October 1968. In previous quarters Mexican totals were included as other foreign-grown cigar-leaf. * Revision.
